2 YP/WIE/LMAG MEETING (Aug. 6, 9:00-12:30)

YP, WIE and LMAG introduced our/their activities and discussed next events including R10 meeting. This was a first meeting with YP, WIE and LMAG.

At first, all affinity groups introduced their activities and policy. Tokyo YP succeeded in encouraging participates to communicate by "networking bingo". Kansai YP aims to expand range of their activities through MAW. Our group (Nagoya YP) plans to held events adapted advantage of previous events, and aims to cooperate with companies in Tokai and Hokuriku areas.

Second, all members introduced themselves including their background and affiliations.

Third, we discussed the way to increase IEEE members, especially for a member in a company.

Finally, Tokyo YP announced "All Japan AG Congress" in March 3, 2017 before R10 meeting.

3 CAREER DEVELOPMENT WORKSHOP (Aug. 6, 13:40-16:30)

This workshop was ideathon for SB/YP/WIE/LMAG members. Its topic is "IEEE activities for career development." At first, participates discussed their idea with each other. Second, participates summarize their idea, and evaluated others idea. Finally, participates joined some groups for superiors idea to discuss in detail, and gave presentation about group's idea.

After the workshop, a memorial photo was taken.

4 For MAW and SYWL Workshop in Nagoya at 2017

MAW in Kansai focused on internet of things, IoT, many people are interested in. MAW in Nagoya may need to have one theme to clarify its purpose and benefit, for example, "MAW in Nagoya, Innovation from Tokai and Hokuriku Areas."
