

Event Report

Sapporo YP Chair He Li

Nagoya YP Chair Takeshi Yamada

JC YP Coordinator Ryuichi Takemura

1 Event summary

YP meet was held after the IEEE Japan SYWL Workshop in Hiroshima (and Online) 2020, YP members from all sections got together again and discussed the status and future plans of YP groups.

The event consisted of 3 parts: opening speech, group discussion, and closing speech. The opening speech was given by Takuo Suzuki, the current IEEE Region 10 Young Professionals Committee Chair. The subject was “Non-technical activities including technical topics.”

In the group discussion part, representative of YP from each section introduced the development and problems at hand. Nagoya YP considered that it was difficult to hold events to broaden knowledge. Tokyo YP indicated that there was still a small number of active members, while events were many. Compared with the situation of India, it should be attributed to the different evaluation methods and work styles. Sendai YP regarded expanding the coverage of YP group in Tohoku as an important developing target in the future. Sapporo YP, which was set this year, thought that how to increase regional awareness and develop cooperation between enterprises will be the initial development focus. At last, Ryuichi Takemura, the chair of this event, concluded that the development of YP requires communications with enterprises, as well as the cooperation among YP groups.

2 Venue and Schedule

Venue: Hiroshima Office Center

Schedule: 2020/10/17 Sat. 14:00-17:00

3 Budget Summary

Table 1 Budget Summary

Item	Budget	Settlement	Note
Venue	¥ 10,000	¥ 5,490	
Sum total	¥ 10,000	¥ 5,490	

4 Impression

It was best opportunity to take conversation about issues of all YP affinity groups in the same place. And we noticed it is very important to meet in real. If we can clarify our issue and solve it by ourselves, there is nothing to help each other. But in the almost all cases, we don't know what our problem in the

situation is. So, we need to exchange information each other. Then, we can focus on it to find the right way with all. YP meet is not only way to figure out its issue, but also to engage ourselves. YP should be always attractive community. This is the beginning of our new start from here.

5 Acknowledgement

This event was organized by the volunteers from all YP sections in Japan. We thank to Dr. Takuo Suzuki for his presentation. We also thank to Japan council for their financial support.
