

[July 14, 2021]

## The 2021 Second Meeting of Tokyo Section Executive Committee

The 2021 Second Meeting of Tokyo Section Executive Committee was held with hybrid-style (on-site and teleconference) from 3 pm, June 3, with 21 participants including 2 observers.

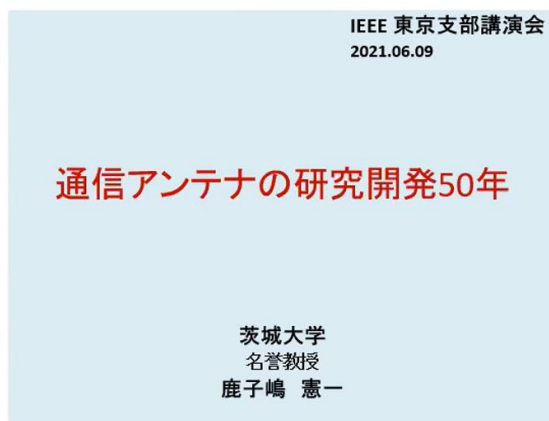

◆Minutes \*Japanese-only

Schedule for 2021

Third Meeting	Tuesday, September 28	Sumitomo Electric (Akasaka-mitsuke)
Forth Meeting	Tuesday, December 7	Sumitomo Electric (Akasaka-mitsuke)

## The 3rd Lecture Meeting of Tokyo Section in 2021

The 3<sup>rd</sup> Lecture Meeting of the Tokyo Section in 2021 was hosted by Tokyo Technical Program Committee (TPC) from 3:00 p.m. to 4:30 p.m., Wednesday, June 9, via the Web virtual conference system Zoom Webinar with about 150 participants. This lecture meeting is co-sponsored by Tokyo Life Member Affinity Group (LMAG) and the Institute of Electronics, Information, and Communication Engineers (IEICE). Prof. Kenichi Kagoshima, Professor emeritus of Ibaraki University, gave the invited talk entitled "Research and developments of communication antennas over fifty years." He broadly talked about the antennas for satellite communication and mobile wireless access systems. We used Zoom Webinar as a virtual conference system. In the current situation, this online style obtains the understanding of attendees and helps to receive many attendees. We pursue to grope for the future Lecture meetings as considering the COVID-19 situations.

### Fellow Citation

Contributions to the antennas for satellite communication and mobile wireless access systems

(Reported by Technical Program Committee Secretary, Ryoko Matsuo)

## Notice of Presentation of Pin Badges to Continuing Members

IEEE's activities have been maintained and developed by the support of many members.

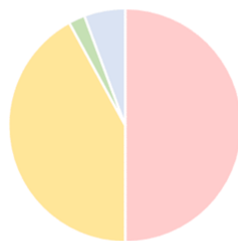

Since last year, Tokyo Section has been presenting IEEE Tokyo Section members with a pin badge as a commemorative item according to the number of years they have been members, as a way of thanking them for their continuous membership, promoting friendship among members, and asking for further cooperation in the future. The pin badges are available in six different colors.

Years of membership Color of the pin badge	The image of pin badge	Years of membership Color of the pin badge	The image of pin badge
5 years Blue		25 years Yellow	
10 years Purple		30 years Red	
20 years Green		40 years Black	

We have conducted a questionnaire to the members who have been presented with the Senior Member Promotion Medal and the Continuing Member Pin Badge, and more than 90% of them answered "very satisfied" or "mostly satisfied".

The pin badges will be sent to the appropriate members around February each year, and we hope that you will continue to support the IEEE in its future activities.

### Questionnaire Results

■ very satisfied ■ mostly satisfied ■ slightly dissatisfied ■ dissatisfied

## Information on Automatic Membership Renewal

Have you updated your IEEE membership in 2021?

It is said that changes in social structure will be accelerated as a result of the worldwide spread of this new coronavirus infection. Many people are thinking about what technology should be, and some has started taking actions, in order to overcome global threats such as infectious diseases and climate change, and realize a truly safe, peaceful, and comfortable society. Having online access to information and data, and knowledge and wisdom of human networks that have been accumulated and updated by the IEEE over the years, should be of great value especially in situations where physical contact among people is limited. Please don't forget to renew your IEEE membership and let's continue to take part in development of technology in the world.

\* How to renew membership

Please register for an account on the IEEE headquarters website and follow the renewal procedure on the membership renewal page

([http://www.ieee.org/membership\\_services/membership/renew/index.html](http://www.ieee.org/membership_services/membership/renew/index.html)).

You can also set automatic renewal, which skips the annual renewal procedure.

(Reported by Membership Development Committee Chair, Tomoyuki Yokota)

## Notice from IEEE Tokyo Section Office

Tokyo Bulletin is published via E-mail.

- Have you renewed your 2021 IEEE membership? You can easily [renew](#) your membership online with your [Web Account](#).
- Tokyo Section encourages membership upgrade to Senior Membership. Visit IEEE website for [online application](#). For details, please refer to [Senior Member Application procedure](#).
- Please make sure to notify IEEE HQ of any changes in your address, etc. [Online profile management](#) is available by registering your [Web Account](#).

IEEE Tokyo Section welcomes any comments, requests or inquiries from our members. Please send them to [tokyosec@ieee-jp.org](mailto:tokyosec@ieee-jp.org).
