

Report on IEEE R10 SYWL Congress 2024

IEEE R10 SYWL Congress 2024 was held from August 29 to September 1, at the National Olympics Memorial Youth Center, Tokyo, Japan.

IEEE R10 Students, Young Professionals, Women In Engineering and Life Members (SYWL) Congress is a bi-annual event of IEEE Asia-Pacific Region (R10). The event aims to foster volunteer leadership, and facilitates networking among the participants from different corners within the Region.

324 participants and 8 student volunteers gathered at the venue. Participants from Japan were 119, and overseas participants from 21 countries/regions were 205. Since Typhoon No. 10, Shanshan, hit the western part of Japan, a few domestic participants could not come to Tokyo. Several registered overseas participants could not come due to the entry visa or the approval of their institute.

The outline video of the congress is available at [YouTube](#). Local Organizing Committee would like to express our gratitude to Mr. Vijay S. Paul, who created the YouTube video until 4am of the final day of the congress.

[The detailed report](#) is available in Quarter 4: October Edition, IEEE R10 Newsletter.

The author would like to express my deepest gratitude to local organizing committee member's planning, operation and cleaning up after the event, and to the participants who greatly contributed the event to be excited.

(Reported by Operation Committee Chair, IEEE R10 SYWL Congress 2024, (ex. NEC) Hidenobu Harasaki)

Notice of membership renewal

Dear members, have you completed your IEEE membership renewal for the 2025 fiscal year?

IEEE is the world's largest professional technical organization, dedicated to pursuing innovation and excellence, and we strive to provide our members with cutting-edge knowledge and networking opportunities. In support of our shared goal of advancing technology and sustainable growth, we would like to inform you about the automatic renewal of membership.

By utilizing automatic renewal, you can continue to access member benefits and programs, maximizing your opportunities for interaction and knowledge sharing within the IEEE community. Additionally, setting up automatic renewal alleviates the hassle of manual procedures and concerns about renewal deadlines, allowing you to focus your valuable time and energy on creative activities.

Please remember to renew your IEEE membership and contribute to the advancement of technology worldwide.

*How to Renew Your Membership After registering your account on the IEEE headquarters website, please proceed to the membership renewal page (http://www.ieee.org/membership_services/membership/renew/index.html) to complete the renewal process. You can also set up automatic renewal to skip the annual renewal process, so please take advantage of this option.

(Report by: Membership Development Committee Chair, Shusuke Kaya)

Notice from IEEE Tokyo Section Office

Tokyo Bulletin is published via E-mail.

- Tokyo Section encourages membership upgrade to Senior Membership. Visit IEEE website for [online application](#). For details, please refer to [Senior Member Application procedure](#).
- Please make sure to notify IEEE HQ of any changes in your address, etc. Online profile management is available on your [Web Account](#).

IEEE Tokyo Section welcomes any comments, requests or inquiries from our members. Please send them to tokyosec@ieee-jp.org.
